## INTRODUCING:

## FOR PRICE...

With our ability to source from multiple suppliers, we always offer competitive pricing...often the lowest around!

## FOR STOCK...

We receive parts daily, and support all major trailer manufacturers - van and flatbed. We are able to special order parts & more. If you need it, we can do it!

## ALWAYS YOUR PARTNER...

We believe in partnering with you for our mutual success. We supply the parts, you do the repairs. We have never been, and will never be, in the repairs business

## NEVER YOUR COMPETITION

When you buy from a repair company, you are putting money in your competitor's pocket. It's not a great model. We think you shouldn't have to worry about your parts supplier taking your business. And we won't.

## FOR SERVICE...

Delivery When You Need It! ✓

Custom Orders! ✓

Product Support! ✓

Sales Reps Visiting You! ✓

And So Much More! ✓

# YES!

*We Can Do That!*

If you keep being told 'no', do you want to go back? Of course not. We wouldn't either. **US Trailer** is in the business of saying yes.

Sometimes that means 'yes, and we'll figure out how later', but we believe in saying yes. If we want to earn your business and trust, we need to be willing to do more, and do it better than the others.

Give **US** a try, you'll be glad you did.

## RAIL XPRESS

In August we launched **US Trailer Rail Xpress**, a **free** local delivery service for all 52' product. We deliver rails, flooring, wings, e-track, and any other oversized product you need!

Ask us today about getting your next set of rails when you need them, not when it's convenient to your supplier!

For too long, necessary top and bottom rails have been all but impossible to have delivered with any regularity or reliability. It frustrated us too. So, as part of the new **US Trailer** approach, we stopped wishing someone would do something, and did it ourselves! We commissioned a custom trailer, bought a truck, and began delivering rails, flooring, e-track, scuff, and even full wings to our customers. And because we could, we decided to not charge delivery.

So, that's free local delivery of any 52' product. When you need it. On your schedule, not ours or some random schedule based on phases of the moon or something. Get in touch to set up your own Rail Xpress delivery today!
