# LW03 Series 3" Cube Lights

Responding to the increased demand for small, efficient, lighting options, UBLights developed the 03X Series Cube Lights. We designed them to be powerful, with the lumens of many larger lamps, but without increasing draw on your battery.

Each of the 03 Series lights includes a female Deutsch connector integrated to the design, and all are extensively tested to ensure that they withstand not only the usual conditions of vehicle operation, but the much harsher conditions of off-road and industrial use.

- Reverse Voltage Protection
- High UV Resistant Polyester Powder Coated Black Aluminum Housing
- Polycarbonate Lens
- Powder Coated U-Bracket & Stainless Steel Hardware
- Vibration Tested To SAE J575 Standard
- Corrosion Protection Tested To ATSM B117 Standard
- Expected Lifecycle of 50,000 Hours
- Includes Integral Female Deutsch Connector

# LW5 Series Work Lights

LED work lights may not be as glamorous as some other products, but these are the backbone of modern safety and lighting gear. Designed to be rugged, durable, and hassle-free, the work light collection is found where work can't stop because the sun does. We see our lights in agriculture, construction, shipping & port management, emergency services, and more.

# LED Safety Flares

Replacing old-fashioned striker-type flares, our LED flares are a great addition to every safety kit!

Each option is long-lasting, durable, compact, bright, and designed to work in any climate, environment, or situation.

Unlike some other LED flares out there, all of UBLights LED Safety Flares are reusable, and can either be recharged or have the battery replaced - removing the need to throw them out!

Get yours today, and upgrade your safety kit to the best flare option!

LSL4016-AF-CS IP67

Diodes	Charge Life	Dimensions
16 Amber LED	Up to 100 hrs	4.25" x 1.25"

- Magnetic
- Waterproof & Floats
- TPR Housing
- 9 Flash Patterns
- Visible Up To 1.2 Miles
- Can be used in hot or freezing temperatures (-40° - 212°F) and underwater.

LSL4012-3-AF IP67 Kickstand

Diodes	Run Time	Dimensions
12 Amber LED 3 White	Up to 10 hrs	4.25" x 1.25"

# LW6008 Series Compact Light Bars

Small, convenient, and ready for anything, the LW6008 Series features 6 bright LEDs, designed with a flood pattern and center spot - offering the most bang for the buck. We also offer variations on the theme: the -5 offers an integral female Deutsch connector, and the F a metal flange.

The IP69K rating means this light is not only sealed against dust, but rated to take power-wash-level streams of water from multiple directions at once. This makes the LW6008 Series perfect for mud runs, use on your boat trailer, or even as the main light on an airboat.

- Light Penetration Up To 450 Ft.
- Flood Beam With Center Spot
- Reverse Voltage Protection
- Cast Aluminum Housing w/High UV Resistant Polyester Powder Coating
- Polycarbonate Lens
- E-Coated Steel Bracket
- Vibration Tested To SAE J575 Standard

# LWRL-4RGB Rock Lights

Designed to be a cool accent light, UBLights LWRL-4RGB Rock Lights add a pop of color to your vehicle - any color you want!

Each set contains 4 light units, and a central control box, which connects via Bluetooth® to an app on your phone, letting you set the color and behavior of the lights!

Our rock lights are IP67 rated, protecting them from the mud, water and road dust your tires kick up. The housings are light-weight, rustproof aluminum, and feature stainless steel hardware.

- LED Rock Light Set
- 110 Lumens
- Bluetooth® Wireless Technology
- 2" Wide
- 4 Lights with 1 CREE Diode Set @ 3W Each
- 9V - 32V Range
- RGB - 16 Million Color Combos
- Black Aluminum Housing
- Stainless Steel Hardware
- Includes Harness & Control Box
- UBLights Uses the BLEDIM app for the LWRL-4RGB Lights

# LW8 Series Single Row Light Bars

Our LW8X light bar collection provides the best power for the money in single row bar lines. We start with 5 watt CREE diodes, and back that performance up with a UV resistant powder coat over a durable aluminum housing. We finish the assembly with a polycarbonate lens for clarity, strength, and resistance to the elements. The finished light is rated IP67 - dustproof and water resistant.

The LW8 Series are slim enough to fit into spaces where a double-row simply won't go, and powerful enough to keep your path (or road) visible in the darkest night.

- Reverse Voltage Protection
- High UV Resistant Polyester Powder Coated Black Aluminum Housing
- Polycarbonate Lens
- Adjustable Mounting Brackets for Mounting Horizontally or Vertically
- Vibration Tested To SAE J575 Standard
- Corrosion Protection Tested To ATSM B117 Standard
- Includes sealed connector and 18 ft plug-and-go harness w/ in-dash on/off switch, relay, and fuse

# LW15 Series Halo Single Row Light Bars

Our LW15 Series is a unique product with a lot of potential for your vehicle.

Each of the LED diodes is encircled by a halo - offering you three brightness options: DRL-like halo only, LED main diode only, or both combined! This expands the use options of each bar, and allows you to choose your own light levels based on your current needs!

Each LW15 Series light includes a wiring harness with on/off switches.

# LW10 Series White/Amber Light Bars

UBLights designed the LW10 Series to provide quality, durability, and safety. We started with a double row of Cree LED diodes, encased in a durable aluminum housing, with our polycarbonate lens up front. Then we added a remote control, enabling you to activate the lights when you aren't even in the vehicle! Both white and amber have a strobe function as well.

All LW10 Series lights include a multi-function remote, sealed connector, and 18' wiring harness featuring an in-dash on/off switch, relay, and fuse.

- **Two Color Multi-Function Light Bar**
- Combo Beam Pattern
- White / White Strobe & Amber / Amber Strobe Functions
- **Includes Remote Control**
- High UV Resistant Polyester Powder Coated Black Aluminum Housing
- Polycarbonate Lens
- Adjustable Mounting Brackets for Mounting Horizontally or Vertically
- Corrosion Protection Tested To ATSM B117 Standard
- Includes sealed connector and 18 ft plug-and-go harness w/ in-dash on/off switch, relay, and fuse

# LW11 Series Curved Light Bars

Designed to better fit the curves and contours of pickup trucks, our double-row curved light bars offer a broader spread of light - panoramic, if you will. This gives the driver a larger light field, and increases not only forward, but also peripheral illumination. And more light means more visibility.

All LW11X LED Light Bars include a sealed connector and 18' plug-and-go harness, with in-dash on/off switch, relay, and fuse.

- Combo Beam Pattern
- **Curved**
- High UV Resistant Polyester Powder Coated Black Aluminum Housing
- Polycarbonate Lens
- Adjustable Mounting Brackets for Mounting Horizontally or Vertically
- Vibration Tested To SAE J575 Standard
- Corrosion Protection Tested To ATSM B117 Standard
- Color Temperature 6000K
- Includes sealed connector and 18 ft plug-and-go harness w/ in-dash on/off switch, relay, and fuse

ITEM #	IP RATING	DIODES	VOLTAGE	DRAW	BEAM	SIZE

# LW12 Series White/Green Light Bars

We started the LW12 Series with a double row of Epistar LED diodes, added 4D spot reflectors, encased in a durable aluminum housing (powder coated in a UV resistant finish), with our polycarbonate lens up front. Then we added green LEDs to let you see the darkened trails in front of you, without messing with your night vision.

All LW12X Series lights include a sealed triangular connector, and 18' wiring harness featuring an in-dash on/off switch, relays, and fuse.

- Spot Beam Pattern
- Green or White Light
- High UV Resistant Powder Coated Aluminum Housing
- Polycarbonate Lens
- 6000K Color Temperature White, 2200K Amber
- Corrosion Protection Tested To ATSM B117 Standard
- Aluminum Firm Mounting Brackets
- 4D Reflector
- Includes sealed connector and 18 ft plug-and-go harness w/ in-dash on/off switch, relay, and fuse

## LWBR0001

Hood Mount Kit

Part #

LWBR0001

- Hood Mount
- For 20" & 22" Light Bars
- Designed for Jeep Wrangler, 2007 - 2015

## LWBR0002

Bar Clamp

Part #

LWBR0002

- Universal Bar Clamp
- 1.25"
- Aluminum
- Designed for LED Work Lights

## LWBR0003

Bar Clamp

Part #

LWBR0003

- Universal Bar Clamp
- 1.5", 1.75", & 2"
- Aluminum w/Rubber Insert
- Designed for LED Work Lights

## LWBR0004

Bar Clamp

Part #

LWBR0004

- Universal Bar Clamp
- 2.5"
- Aluminum
- Designed for LED Work Lights

## LWBR0006

Bull Bar Clamp

Part #

LWBR0006

- Universal Bull Bar Clamp
- 1.5"
- Aluminum
- Designed for LED Light Bars

## LWBR0007

Bull Bar Clamp

Part #

LWBR0007

- Universal Bull Bar Clamp
- 1.75"
- Aluminum
- Designed for LED Light Bars

## LWBR0008

Brow Mount Kit

Part #

LWBR0008

- Brow Mount Kit
- SVT Raptor
- Designed for Straight & Curved LED Light Bars

## LWBR0009

Windshield Mount Kit

Part #

LWBR0009

- Upper Windshield Mount Kit
- Jeep JK 2007 - 2015
- Designed for Straight & Curved LED Light Bars

## LWBR0010

Hood Mount Kit

Part #

LWBR0010

- Hood Mount Kit
- For 10" Light Bars
- Jeep Wrangler 2007 - 2015

## LWBR0011

A Pillar Mount Kit

Part #

LWBR0011

- A-Pillar Mount Kit
- Jeep Wrangler 2007 - 2015

## LWBR0012

A Pillar Mount Kit

Part #

LWBR0012

- A-Pillar Mount Kit
- Jeep Wrangler 2007 - 2015

## LWBR0013

Windshield Mount Kit

Part #

LWBR0013

- Windshield Auxillary Mount Kit
- Jeep Wrangler 2007 - 2015

**IP67 Ingress Protection**

This rating means that the item is dust tight, no ingress of dust over a test duration of up to 8 hours. These lights are also watertight, tested by immersion in up to 1 meter of water for no less than 30 minutes.

**IP68 Ingress Protection**

This rating means that the item is dust tight, no ingress of dust over a test duration of up to 8 hours. These lights are also waterproof, designed for continuous use underwater, up to 3 meters.

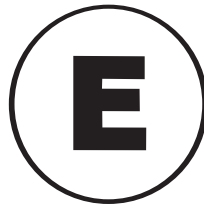

**IP69K Ingress Protection**

This rating means that the item is dust tight, no ingress of dust over a test duration of up to 8 hours. These lights are also watertight, and protected against high pressure spray and steam cleaning.

**CE Marking**

CE marking indicates that the manufacturer claims compliance with the relevant EU legislation applicable to a product, regardless of where manufactured.

E-mark certification  
**E-mark Certification**

The E-Mark Certification is a widely recognized mark in the automotive industry covering the basic safety requirements of motor vehicles and other related products within the European Economic Area.

**RoHS Compliance**

RoHS stands for Restriction of Hazardous Substances. RoHS originated in the European Union and restricts the use of six hazardous materials found in electrical and electronic products.

**SAE J575**

This test evaluates the ability of the sample device to resist damage from vibration induced stress, over a minimum of 60 minutes.

**ASTM B117**

Salt Spray (Fog) Test is used to evaluate the relative corrosion resistance of coated and uncoated materials exposed to a salt spray or fog at an elevated temperature, usually 95°F for a minimum of 24 hours.

# OWN THE NIGHT

Why do we say that with UBLights you Own The Night? Because you do. It's that simple. Our trail-ready LED light bars throw bright, steady, white light hundreds of feet ahead of you, helping make sure you see what is coming next. Our LED light bars project at 6500 Kelvin - simulating noon on a cloudless day.

The difference  
is obvious - from  
night...

To Day...**That** is  
Owning The Night!

@owningthenight

@ownthenight\_ublights

@ownthenight\_ubl

UBLights Platinum Series LED Light Bars, Work Lamps, and Portable Lamps are designed for hard use in any environment. All of our bars and lights are rated to at least IP67 - completely sealed against dust and rated to full submersion in up to a meter of water.

UBLights LED Light Bars are perfect for any use where bright, durable, lights are needed - from lift trucks to farm equipment to off-road vehicles and boats.

With UBLights, you will need sunglasses at night!
